## **DETAILED ACTION**

### ***Drawings***

1. Figures 1 and 2 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Information Disclosure Statement***

2. The information disclosure statement filed March 29, 2007 has been entered and considered. An initialed copy of the PTO-1449 by the Examiner is attached.

### ***Priority***

3. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Claim Objections***

4. Claim 10 is objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should depend on another claim in the alternative only. See MPEP § 608.01(n). Accordingly, the claim has not been further treated on the merits.

***Claim Rejections - 35 USC § 112***

5. Claims 34-37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite in that it fails to point out what is included or excluded by the claim language. This claim is an omnibus type claim.

6. Claim 26 recites the limitation "System" in claim 20. There is insufficient antecedent basis for this limitation in the claim. It is unclear as to whether claim 26 is an independent claim or a dependent claim. Please verify and/or correct. Claim 27 is rejected for being dependent on rejected claim 26.

***Allowable Subject Matter***

7. Claims 1-9, 11-25, and 28-33 are allowed.

***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited prior art show various radar systems.
